Subject: FW: comments on LHCC air modeling report

ATTACHMENT: lhcc.air.model.110.doc

Folks:

I added a couple minor grammatical comments and questions to Dave's edited version. I will get a schedule/status on the USACE technical review tomorrow.

Bob

Subject: comments on LHCC air modeling report

Hello all - here are my comments on the subject report. My comments on the narrative text are in Track Changes in the attached file, and my comments on the Figures are listed below. Overall a well done, very informative report.

Thanks - Dave

(See attached file: lhcc.air.model.110.doc)

Comments on Figures:

1. Figures 2 and 3: "Proposed Lower Harbor CAD Cell" in the Legend should be changed to "Approximate Location of Proposed Lower Harbor CAD Cell".

2. Figures 8, 9, 10 and 11: the Legend should include MHW and MLW (or MHHW and MLLW whichever is represented here).
3. Figures 8, 9, 10 and 11: suggest either deleting the small red circles in each figure or describing them in the Legend.
4. Figures 8 and 10: for clarification, add "(Including Background Sources)" after "CAD Activities" in the title box.
5. Figures 9 and 11: for clarification, edit title to read "Model Predicted Annual Average PCB Concentrations Contributed from the 1st Year of 2-Year Dredging and CAD Activities - Background Sources NOT Included"
